

The City of Springdale is currently undertaking a program to provide residents with a way of disposing of debris that would otherwise be difficult to place at the curb for general waste removal service. Residents may now request a city truck to be parked in the driveway overnight or over a weekend to load debris for disposal. Two different size trucks will be made available:

pickup truck = 3 cubic yards

dump truck = 8 cubic yards

The property owner will be required to complete a request / release of liability form prior to delivery of the truck (a copy is shown on the back of this brochure). The property owner will also assume financial responsibility for any damage to the truck while parked on their property. Any construction debris must be **only** from improvements made by the property owner at the address where the truck is parked, **not** as a result of work that has been performed by a contractor, or by a resident at a location other than his/her residence.

Items and materials that may not be loaded onto a city truck are:

- chemicals
- hazardous materials
- paint
- oil
- batteries
- tires
- appliances with freon
- asbestos

Yard waste which includes:

- grass clippings
- leaves
- limbs
- pruning
- hedge trimmings
- sod
- other plant material

To receive more information on this service contact the Springdale Public Works Department at 771-6835.

Program

**RELEASE
FOR PROPERTY OWNER(S) LOADING DEBRIS ON CITY TRUCKS
OVERNIGHT OR OVER A WEEKEND**

In consideration of services to be rendered to the undersigned and other good and valuable considerations, the receipt of which are hereby acknowledged, the undersigned hereby releases and discharges the City, its agents and employees, against any and all liability, claims, demands, costs, damages and expenses of any kind, hereinafter the "claims", including, but not limited to, those arising out of the undersigned's use of the City's property in and about the premises known as:

whether or not such entrance and work are within the scope of their employment and agency.

The undersigned further agrees to hold harmless and indemnify the City, its agents and employees, from any and all claims, including reasonable attorneys fees, which the City may incur as a result of allowing the undersigned to use City property.

The undersigned represents that they are the owners of said premises, have invited the City of Springdale, Ohio, and its employees and agents upon the premises, and have the right to grant this release. This release shall be binding upon the undersigned, their heirs and assigns.

A truck will be provided to the **property owner** of the above address for his/her use. Said truck may be used to load debris upon for disposal. Any construction debris loaded on a city truck must be only from improvements made by the **property owner** at the above address **NOT AS A RESULT OF WORK THAT HAS BEEN PERFORMED BY A CONTRACTOR OR BY A RESIDENT AT ANOTHER ADDRESS OUTSIDE OF THE CITY OF SPRINGDALE.**

Owner agrees he/she shall not operate or otherwise move the vehicle or operate any equipment which is accessory to the vehicle.

The City of Springdale will park a _____ ton truck in the driveway at your residence at approximately _____ AM/PM on _____ and will remove it at approximately _____ AM/PM on _____.

NOTE: If a City vehicle (such as a dump truck) is loaded by a resident, the following items / materials may not be loaded onto trucks: NO garbage, rubbish, chemicals, hazardous materials, paint, oil, batteries, tires, appliances with freon and NO yard waste which includes grass clippings, leaves, limbs, branches, pruning, hedge trimmings, sod and other plant material.

Furthermore, the undersigned property owner warrants and represents they have valid and adequate insurance coverage and accepts financial responsibility for any and all damages which might occur to a city owned vehicle during any period of time such vehicle is left at the premises of such property owner, at his/her request and for his/her convenience. Financial responsibility for such damage shall accrue regardless of whether the property owner is directly responsible for this damage.

STREET TREE PLANTING PROGRAM

This pamphlet was prepared to give property owners information on obtaining, selecting and caring for street trees. The Street Tree Program provides for the planting of trees between the sidewalk and curb in the public right-of-way. In areas where there are no sidewalks, the trees will be planted the same distance behind the curb as if sidewalks were installed.

Trees offered by the city are free to all residential units. You may call in your request to the City of Springdale Public Works Department, Monday through Friday between 7-3:30, at 771-6835.

Inside this pamphlet you will find a partial list of desirable trees offered in this program.

Residents are eligible for two trees, except corner lots are eligible for four trees.

Please have the following information ready when you call in your request:

Name
Address
Phone number
Type and # of trees requested

The city will make every effort possible to fill your request.

TREES Our Quiet Friends

Trees are a valuable resource that are sometimes overlooked. Trees improve the environment in many ways:

- Trees provide shade.
- Trees reduce glare from pavement.
- Trees muffle noise.
- Trees release oxygen, absorb carbon dioxide and freshen the air.
- Trees block wind and settle dust.
- Trees cool air, providing shade and moisture.
- Trees increase property values.
- Trees help attract customers to business areas.
- Trees hold soil with their roots.
- Trees provide wildlife habitats.

TREE CITY USA
"A Tree City USA since 1992"

URBAN FORESTRY PROGRAM

The City of Springdale began the Urban Forestry Program in the early 1970's by offering brush pickup for the residents.

In 1985 the city began a small street tree planting program. Approximately 25 trees were planted the first year. Until 1991 all of the city planted trees were planted by the Public Works Department. In the fall of 1991 the city began contracting with local contractors to perform entire street plantings. The combined plantings of the Public Works Department and private contractors have accounted for plantings of more than 2,500 trees citywide. A large portion of the plantings were made possible by the Small Business Administration Tree Planting Grants.

In addition to SBA Grants the city has received several Urban Forestry Management Grants from the State of Ohio for projects such as street tree trimming and a computerized inventory of all city owned trees.

The City of Springdale hopes to establish a strong healthy urban forest as it prepares to enter the 21st century.
